"For many years now, Mercy Ships has provided medical services for the poor throughout the world. You're reaching out to people in need – feeding the hungry, caring for the lonely, and giving urgent medical help to those who need it. I have every hope you will continue to reach more and more patients in the years beyond. I know you will continue your mission of bringing hope and healing to those who need it most. May God continue to bless you in your important work."

"For all the things that we have done to ourselves as a people, your response is one of love; one that helps us to see a different way, to look at ourselves with a different value. You enable many of our people to live again, to become part of society in a normal way – no longer an object of pity, no longer silenced by their handicap, no longer ashamed of their condition. We thank you."
